

AMERICAN RELIABLE INSURANCE COMPANY ACTUAL CASH VALUE DEFINED

This endorsement modifies insurance provided under the policy.

The following definition is added to any provision which uses the term actual cash value:

Actual cash value is calculated as the amount it would cost to repair or replace covered property, at the time of loss or damage, with material of like kind and quality, subject to a deduction for deterioration, depreciation and obsolescence. Actual cash value applies to valuation of covered property regardless of whether that property has sustained partial or total loss or damage.

The actual cash value of the lost or damaged property may be significantly less than its replacement cost.
